Feedback on your performance is printed below. The report lists the objectives for which you answered a question incorrectly.

- Describe the data types that are available for columns
- Execute a basic SELECT statement
- Use a set operator to combine multiple queries into a single query
- Use character, number, and date functions in SELECT statements
- Use single-row and multiple-row subqueries

If this is the final exam in your certification path, you are required to complete the following steps.

- Visit certification.oracle.com and select your certification path to ensure you are aware of all certification requirements.
 - Note that completion of the required training and approval of the course submission form are also required in paths that require training.
- Check certview.oracle.com to confirm that all completed components are in your profile.
 - If exams that you have taken do not show up, you may have taken them under a different Oracle Testing ID.
 - Contact www.pearsonvue.com/oracle/contact to merge your IDs (provide all IDs under which you have taken exams or submitted forms and confirm which ID should be the 'surviving id').
